

Ardmore Shipping Corporation Announces Financial Results for the Three and Six Months Ended June 30, 2014

Released : 29/07/2014

HAMILTON, Bermuda--(BUSINESS WIRE)-- Ardmore Shipping Corporation (NYSE:ASC) ("Ardmore" or the "Company") today announced results for the three and six months ended June 30, 2014.

Highlights

- Reported EBITDA (see Non-GAAP Measures section below) of \$5.0 million for the three months ended June 30, 2014, an increase of \$2.4 million from \$2.6 million for the three months ended June 30, 2013. The Company reported a net profit of \$0.1 million for the three months ended June 30, 2014, or \$0.004 basic and diluted earnings per share, as compared to a net loss of \$1.2 million, or \$0.148 basic and diluted net loss per share, for the three months ended June 30, 2013.
- Reported adjusted EBITDA (see Non-GAAP Measures section below) of \$5.3 million for the three months ended June 30, 2014, an increase of \$2.3 million from \$3.0 million for the three months ended June 30, 2013. The Company reported an adjusted net profit (see Non-GAAP Measures section below) of \$0.4 million for the three months ended June 30, 2014, or \$0.016 basic and diluted adjusted earnings per share (see Non-GAAP Measures section below), as compared to an adjusted net loss of \$0.7 million, or \$0.081 basic and diluted adjusted loss per share, for the three months ended June 30, 2013.
- Completed the acquisition of the *Ardmore Endeavour*, a 49,997 Dwt Eco-design product and chemical tanker built at STX Offshore & Shipbuilding Co. Ltd, Korea in July 2013 for a purchase price of \$36 million. The vessel was delivered to Ardmore on June 25, 2014 and immediately commenced employment in the spot market.
- Completed the acquisition of the *Ardmore Sealifter*, a 47,472 Dwt product tanker built at Onomichi Dockyard Co. Ltd, Japan in July 2008 for a purchase price of \$23 million. The vessel was delivered to Ardmore on July 22, 2014 and immediately commenced employment in the spot market.
- Agreed to acquire a 47,463 Dwt product tanker built at Onomichi Dockyard Co. Ltd, Japan in August 2008 (to be renamed *Ardmore Sealeader*), for a purchase price of \$23 million. The vessel is expected to deliver to Ardmore in August 2014.
- Completed a senior debt facility with Credit Agricole for \$39 million on May 22, 2014 to finance two of our existing 25,000 Dwt IMO2 product and chemical vessels currently under construction at Fukuoka Shipbuilding Co. Ltd in Japan. The first of these vessels is expected to deliver in November 2014, with the second scheduled to deliver in March 2015.
- Completed a \$53 million increase to the existing \$172 million debt facility with ABN AMRO Bank N.V., Nordea Bank Finland Plc, and Skandinaviska Enskilda Banken AB on July 24, 2014, under the facility's accordion option. The total amount available under the facility is now approximately \$225 million and the increased amount is expected to be used to finance up to 65% of the purchase price of the three recently acquired MR product and chemical tankers.
- Declared a cash dividend, on July 15, 2014, of \$0.10 per share for the quarter ended June 30, 2014.

Anthony Gurnee, the Company's Chief Executive Officer commented:

"We are pleased with the Company's profitable second quarter results. The vessels delivered year-to-date have contributed meaningfully to earnings growth, and the Company's employment strategy has ensured stability in cashflow and earnings. During the quarter, we have continued to execute our growth strategy, expanding our fleet with the acquisition of three fuel-efficient MR product tankers in a disciplined manner that is accretive to earnings. We have already taken delivery of two of these vessels and, following delivery of the third vessel, the Ardmore Sealeader, in August 2014, 58% of our fleet will be in the water and contributing to earnings."

Mr. Gurnee continued:

"We are also pleased to have completed financing for the three most recent acquisitions with our existing banking group. We look forward to finalizing the debt facility for the Ardmore Seamariner in the near term, at which point our entire fleet including those on order will have committed debt financing in place. Our conservative balance sheet and proven ability to finance accretive acquisitions position us well to capitalize on attractive opportunities in order to benefit from the strong, long-term fundamentals of the product and chemical tanker sectors."

Summary of Recent and Second Quarter 2014 Events

Fleet

Acquisitions

On May 27, 2014, Ardmore acquired the *Ardmore Endeavour* a 49,997 Dwt Eco-design MR product & chemical tanker built at STX Offshore & Shipbuilding Co. Ltd, in Korea in 2013, for a purchase price of \$36 million. Ardmore took delivery of this vessel on June 25, 2014, and it is now employed in the spot market.

On June 10, 2014, Ardmore acquired the *Ardmore Sealifter*, a 47,472 Dwt MR product tanker built at Onomichi Dockyard in Japan in 2008, for a purchase price of \$23 million. Ardmore took delivery of this vessel on July 22, 2014, and it is now employed in the spot market.

On June 5, 2014, Ardmore agreed to acquire a 47,463 Dwt MR product tanker built at Onomichi Dockyard in Japan in 2008 and to be renamed *Ardmore Sealeader* for a purchase price of \$23 million. This vessel is expected to deliver to Ardmore in August 2014.

Fleet Operations and Employment

As of this date, we have thirteen vessels in operation, are awaiting delivery of a recently acquired vessel (to be renamed *Ardmore Sealeader*) scheduled for August, and have ten Eco-design vessels under construction delivering in 2014 and 2015. Our thirteen vessels in operation comprise: five Eco-design MR product and chemical tankers; five Eco-mod product tankers; and three Eco-mod chemical tankers.

Eco-design MR

During the quarter, four of our five Eco-design MR's employed on time charters at an average rate of \$15,859 / day. The average expiry of these time charters is seven months from June 30, 2014. One of these time charters contains a market-based profit share component. We took delivery of our fifth Eco-design MR *Ardmore Endeavour* on June 25, 2014, which has commenced trading in the spot market.

For the third quarter of 2014, we expect to have 80% of our revenue days for the five Eco-design MR's covered by time charter employment at an average rate of approximately \$15,800 / day before profit share and 20% of revenue days employed in the spot market.

Eco-mod MR

During the quarter, we had four Eco-mod MR's employed on time charters at an average rate of \$14,710 / day. The average expiry of the time charters is seven months from June 30, 2014, and three of our charters are at escalating rates over the period. We took delivery of our fifth Eco-mod MR *Ardmore Sealifter* on July 22, 2014 and commenced trading in the spot market, and we expect to take delivery of our sixth unit, TBN *Ardmore Sealeader*, in August after which it will be engaged in either the spot market, in a pool, or on time charter.

For the third quarter of 2014, we expect to have 71% of our revenue days for the first five Eco-mod MR's covered by time charter employment at an average rate of approximately \$13,800 / day and 29% of revenue days employed in the spot market. The time charter rate in the third quarter reflects the first part of rate escalation on three, seven month, time charters and the average rate over the duration of the charters will be \$14,200 / day.

Chemical

During the quarter, we had one 29,000 Dwt chemical tanker employed on a time charter at a rate of \$13,549 / day, and we had two 17,500 Dwt chemical tankers employed in a pool earning an average rate of \$9,893 / day. The expected expiry of the time charter is six months from June 30, 2014.

For the third quarter of 2014, we expect to have 33% of our revenue days for the chemical tankers covered by time charter employment at a rate of approximately \$13,500 / day and 67% of revenue days employed in a pool whose earnings are derived from the spot market.

Drydocking

The *Ardmore Seafarer* completed its second special survey on June 23, 2014, and the *Ardmore Seamaster* entered drydock in July 2014 for its second special survey. We expect that drydock days for both vessels will be approximately 38 days in the aggregate.

Financing

On May 22, 2014, Ardmore signed a loan agreement for a new \$39 million credit facility with Credit Agricole CIB. The proceeds from the new facility will be used to finance up to 65% of the purchase price of two 25,000 Dwt IMO2 product and chemical vessels currently under construction at Fukuoka Shipbuilding Co. Ltd in Japan. The facility has a margin of 3.05% above LIBOR and will be an amortizing senior term loan with a final maturity seven years from the date of drawdown. The two vessels are expected to deliver in November 2014 and March 2015.

On July 24, 2014, Ardmore completed an increase of its facility with ABN AMRO Bank N.V., Nordea Bank Finland Plc and Skandinaviska Enskilda Banken AB ("SEB") in the amount of approximately \$53 million. The proceeds will be used to finance up to 65% of the purchase price of Ardmore's three recent secondhand vessel acquisitions. The margin is 2.95% above LIBOR. The total amount available for borrowing under this facility is now approximately \$225 million.

We are currently in discussions to finalize a senior debt facility for the *Ardmore Seamariner*, and, once completed, Ardmore's entire fleet will have committed financing in place.

Dividend

On July 15, 2014, Ardmore's Board of Directors announced a cash dividend of \$0.10 per share for the quarter ended June 30, 2014. The cash dividend is payable on August 14, 2014 to all shareholders of record on July 31, 2014.

Results for the three months ended June 30, 2014 and 2013

For the three months ended June 30, 2014, the Company reported EBITDA (see Non-GAAP Measures section below) of \$5.0 million, an increase of \$2.4 million from \$2.6 million for the three months ended June 30, 2013. The Company reported a net profit of \$0.1 million, or \$0.004 basic and diluted earnings per share, for the three months ended June 30, 2014, as compared to a net loss of \$1.2 million, or \$0.148 basic and diluted loss per share, for the three months ended June 30, 2013.

For the three months ended June 30, 2014, the Company reported adjusted EBITDA (see Non-GAAP Measures section below) of \$5.3 million, an increase of \$2.3 million from \$3.0 million for the three months ended June 30, 2013. Adjusted net profit (see Non-GAAP Measures section below) amounted to \$0.4 million, or \$0.016 basic and diluted adjusted earnings per share (see Non-GAAP Measures section below), for the three months ended June 30, 2014, as compared to an adjusted net loss of \$0.7 million, or \$0.081 basic and diluted adjusted loss per share for the three months ended June 30, 2013. Results were adjusted for share based compensation (non-cash item) in each period, as applicable, along with IPO costs and deferred finance fee write-offs for the three months ended June 30, 2013.

Results for the six months ended June 30, 2014 and 2013

For the six months ended June 30, 2014, the Company reported EBITDA (see Non-GAAP Measures section below) of \$9.0 million, an increase of \$3.8 million from \$5.2 million for the six months ended June 30, 2013. The Company reported a net loss of \$0.3 million, or \$0.014 basic and diluted loss per share, for the six months ended June 30, 2014, as compared to a net loss of \$1.2 million, or \$0.153 basic and diluted loss per share, for the six months ended June 30, 2013.

For the six months ended June 30, 2014, the Company reported adjusted EBITDA (see Non-GAAP Measures section below) of \$9.7 million, an increase of \$4.2 million from \$5.5 million for the six months ended June 30, 2013. Adjusted net profit (see Non-GAAP Measures section below) amounted to \$0.4 million, or \$0.016 basic and diluted adjusted earnings per share (see Non-GAAP Measures section below), for the six months ended June 30, 2014, as compared to an adjusted net loss of \$0.7 million, or \$0.086 basic and diluted adjusted net loss per share for the six months ended June 30, 2013. Results were adjusted for share based compensation (non-cash item) in each period, as applicable, along with IPO costs and deferred finance fee write offs for the six months ended June 30, 2013.

Revenue for the three months ended June 30, 2014 was \$13.8 million, an increase of \$5.5 million from \$8.3 million for the three months ended June 30, 2013. The increase primarily relates to additional revenue attributable to the *Ardmore Seavantage*, *Ardmore Seamariner*, *Ardmore Seavanguard* and *Ardmore Endeavour*, which commenced trading on January 18, 2014, February 1, 2014, February 17, 2014 and June 26, 2014 respectively. Fleet time charter equivalent per day was \$14,169 for the three months ended June 30, 2014, as compared to \$12,706 for the three months ended June 30, 2013.

Commissions and voyage related costs were \$0.3 million for the three months ended June 30, 2014, as compared to \$0.1 million for the three months ended June 30, 2013. This increase is due to increases in revenue days in line with additional vessel deliveries in the first quarter of 2014.

Vessel operating expenses were \$6.6 million for the three months ended June 30, 2014, an increase of \$2.2 million from \$4.4 million for the three months ended June 30, 2013. This increase is primarily due to an increase in the number of vessels in operation for the three months ended June 30, 2014, in addition to the timing of operating expenses between quarters. Fleet operating costs per day, including technical management fees, were \$6,470 for the three months ended June 30, 2014, as compared to \$6,443 for the three months ended June 30, 2013.

Depreciation expense for the three months ended June 30, 2014 was \$3.4 million, an increase of \$1.4 million from \$2.0 million for the three months ended June 30, 2013. The increase is due to an increase in the average number of owned vessels to 11.1 for the three months ended June 30, 2014, from 7.2 for the three months ended June 30, 2013.

Amortization of deferred dry dock expenditure for the three months ended June 30, 2014 was \$0.5 million, as compared with \$0.4 million for the three months ended June 30, 2013. The capitalized costs of drydocking are depreciated on a straight line basis to the next scheduled drydocking.

General and administrative expenses for the three months ended June 30, 2014 were \$1.9 million, as compared to \$1.2 million for the three months ended June 30, 2013. The increase is primarily due to costs associated with being a publicly listed company.

Interest expense and finance costs, which include loan interest, capital lease interest and amortization of deferred financing fees, were \$1.0 million for the three months ended 30 June, 2014, a decrease of \$0.4 million from \$1.4 million for the three months ended June 30, 2013. Cash interest expense increased by \$0.3 million as a result of an increase in the average debt balance following the delivery of vessels since June 30, 2013. The overall interest expense charge has decreased as a result of an increase in the amount of capitalized interest which offsets the cash interest expense. Capitalized interest amounted to \$0.9 million for the three months ended June 30, 2014, an increase of \$0.7 million from \$0.2 million for the three months ended June 30, 2013. Capitalized interest has increased in line with deposits paid for *Ardmore's* current vessels on order. There was also a write-off of deferred finance fees in the second quarter of 2013 related to the capital lease facility for the *Ardmore Calypso* and *Ardmore Capella* that was entered into in April 2013.

Liquidity

As of June 30, 2014, the Company had \$66.0 million (December 31, 2013: \$56.9 million) available in cash and cash equivalents.

Non-GAAP Measures

This press release describes EBITDA, adjusted EBITDA, adjusted net profit/(loss) and adjusted net earnings/(loss) per share, which are not measures prepared in accordance with U.S. GAAP. These Non-GAAP measures are presented in this press release as we believe that they provide investors with a means of evaluating and understanding how Ardmore's management evaluate operating performance. These Non-GAAP measures should not be considered in isolation from, as substitutes for, or superior to financial measures prepared in accordance with U.S. GAAP. All amounts are expressed in U.S. dollars, unless otherwise stated.

Forward Looking Statements

Matters discussed in this press release may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words "believe," "anticipate," "intends," "estimate," "forecast," "project," "plan," "potential," "may," "should," "expect," "pending" and similar expressions identify forward-looking statements.

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the failure of counterparties to fully perform their contracts with us, the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, changes in demand for tanker vessel capacity, changes in our operating expenses, including bunker prices, drydocking and insurance costs, the market for our vessels, competition in the tanker industry, availability of financing and refinancing, charter counterparty performance, ability to obtain financing and comply with covenants in such financing arrangements, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents, piracy or political events, vessels breakdowns and instances of off-hires and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
