### **About Ardmore Shipping Corporation**

Ardmore owns and operates a fleet of MR product and chemical tankers ranging from 25,000 to 50,000 deadweight tonnes. Ardmore provides seaborne transportation of petroleum products and chemicals worldwide to oil majors, national oil companies, oil and chemical traders, and chemical companies, with its modern, fuel-efficient fleet of mid-size product and chemical tankers.

We are strategically focused on modern, fuel-efficient, mid-size product and chemical tankers. We actively pursue opportunities to exploit the overlap we believe exists between the clean petroleum product ("CPP") and chemical sectors in order to enhance earnings, and also seek to engage in more complex CPP trades, such as multi-grade and multi-port loading and discharging operations, where our knowledge of chemical operations is beneficial to our CPP customers. Our fuel-efficient operations are designed to enhance our investment returns and provide value-added service to our customers. We believe we are at the forefront of fuel efficiency and emissions reduction trends and are well positioned to capitalize on these developments with our fleet of Eco-design and Eco-mod vessels. Our acquisition strategy is to continue to build our fleet with Eco-design newbuildings and modern second-hand vessels that can be upgraded to Eco-mod. We have a resolute focus on both high-quality service and efficient operations, and we believe that our corporate overhead and operating expenses are among the lowest of our peers.
