### **About Ardmore Shipping Corporation**

Ardmore owns and operates a fleet of MR product and chemical tankers ranging from 25,000 to 50,000 deadweight tonnes. Ardmore provides, through its modern, fuel-efficient fleet of mid-size tankers, seaborne transportation of petroleum products and chemicals worldwide to oil majors, national oil companies, oil and chemical traders, and chemical companies.

Ardmore's core strategy is to continue to develop a modern, high-quality fleet of product and chemical tankers, build key long-term commercial relationships and maintain its cost advantage in assets, operations and overhead, while creating synergies and economies of scale as the company grows. Ardmore provides its services to customers through voyage charters and time charters, and enjoys close working relationships with key commercial and technical management partners.

Ardmore's Energy Transition Plan ("ETP") focusses on three key areas: transition technologies, transition projects, and sustainable (non-fossil fuel) cargos. The ETP is an extension of Ardmore's strategy, building on its core strengths of tanker chartering, shipping operations, technical and operational fuel efficiency improvements, technical management, construction supervision, project management, investment analysis, and ship finance.
